

THE TIME TO JOIN A NETWORK MARKETING COMPANY IS RIGHT NOW!

Copyright, January 2013: Tony Escobar

Record layoffs, record bankruptcies, insolvencies, monumental bailouts, rising food prices, record high insurance premiums, record gas and utility prices, retirement losses, stock market instability. Wow, gosh, nothing but doom and gloom everywhere around you.

Most people out there today have lost faith in our government and our economy; they think it's the worst time ever to start a business. But they are wrong – way wrong!

Nothing is further from the truth; in fact, in my opinion, there may never be a better time than right now to start a home-based business such as getting involved in a network marketing business.

Yes indeed! We have never seen economic instability like this since the great depression and it is fueling the excitement in our industry!

But despite the adversity we all face the cream of America always rises to the top, I believe that the spirit that built this magnificent country still lives in the hearts of the American people.

If our country's economic future is going to be saved for our posterity, it will happen not within the walls of Washington, DC but within the homes and the hearts of her people, people like you.

The free enterprise system, which built America was the result of individuals who dared to dream of what was possible and had the courage to realize those dreams.

Many of the largest companies in America today, began as home-based businesses. Today more so than ever before, Network Marketing is not only re-defining and re-igniting Americans but it is de-programming and reprogramming their belief systems, as

it is now arguably the fastest growing and most efficient method of marketing and personal development in the world.

As a result of this unstable economy and the loss of so many jobs, Network Marketing is now experiencing vertical growth as thousands of new people from all walks of life are enrolling into the most exciting business of all time and your company may just happen to be one of those exciting businesses.

America's economic potential and mobility is second to none in the world. America has always been and always will be, the land of opportunity and free enterprise, it is today and it will be tomorrow.

We will overcome this battle and we will win this war because as Network Marketing professionals, we still believe in the dream that built America. This dream is real and it is available to more people today than at any other time in our history.

What I am saying here is true; I know it for sure, because I am a product of that dream.

The dream that put me on this platform is alive and well more so now than ever before.

I came to America from Australia in the bottom level of a small ship in November 1968. My stateroom was right next to the engine room. All I had to my name was one beat up, old suitcase that was owned by my great grandfather and one pair of beat up shoes with soles worn out.

Yes, I came here alone. Australia taught me to be tough, to be persistent and to never quit. I also had two shirts and two pairs of shorts and one pair of socks, in fact I remember putting cardboard in my shoes to protect my feet. I vividly remember one day having to go to the doctor for 8 stitches in my foot, I stepped on some broken glass. I had nothing but faith in myself and a powerful dream. Guess what my dream was? To become an American and to realize my dream of health, wealth, joy and happiness!

Most American were coming to South Australia as tourists. Elizabeth, South Australia is where I am originally from; other Americans were being transferred there through their jobs.

I just love the American people, in fact most Australians love Americans, we are best friends. To this day, I believe Americans are the greatest, most generous people in the world. I wanted to come to America and become an American!

Because I loved this country so very much I was ready to serve in the army for deployment to Vietnam back in 1970.

I was rejected due to hearing loss that I was born with, in my left ear. I couldn't hear high-pitched sounds. I married my wife Randi and I was blessed with American citizenship just a few years later.

I am very proud to be an American for America stands for freedom, equality, integrity, opportunity, charity, hard work and love. It did back then when I was just 14 and it does today now that I am 64.

My friends, if anyone tells you that the dream of financial independence belongs only to the lucky, privileged few and not to all of us ... you tell them that this is NOT TRUE for a new and exciting era of massive opportunity is here, right now and it is today. The window of opportunity, I believe is 3 years. The window is wide open for you right now!

Whenever the economy looks bleak, Network Marketing explodes and the result is propulsive, vertical growth.

We are seeing this today worldwide. We have seen it for the last 36 months and we absolutely WILL see it for the next 36 months.

The past is gone, it is gone forever, the only thing you and I can do with the past is accept the fact that it was once here. The future is too far away, a year, a month, a week, a day, an hour even a minute – the only moment you will ever know is right now this second so seize it right now!

All of us have become hostages to our past choices, our past decisions and our past experiences. We have all carried that ball and

chain long enough. Its time to get rid of it and re-discover yourselves – Randi and I did. The results are proof of it.

Many Americans have lost hope. Randi and I haven't! We never will because we have faith in this great land and its courageous, aspiring people. We have faith in our industry and the people in it.

Our forefathers who gave birth to the liberty we all enjoy today believed in us and prepared the way for us. They even sacrificed their very lives so that we may live in the land of the free and the home of the brave.

Now is not the time to be shackled with fear. Now is the time to rise up and rebuild this great nation, to recover our economy and fulfill your destiny of greatness.

I have faith in our network marketing profession – for it is alive and well. The next 36 months will see more millionaires created from this incredible industry than at any other period of time in our history.

We can all help families become healthy, wealthy and find true happiness as they work to become independent and debt free.

In August of 2001, I was sitting on top of the world with plenty of money and life was good ... I was flat broke 8 months later. I was three weeks from losing my house and my cars and I was \$660,000 in debt.

Within 24 months after jumping into Network Marketing I had paid off that debt, paid off my house and my cars and had hundreds of thousands of dollars in the bank. A wonderful man rescued my family and I from financial disaster. This man knew of our desperate situation and he believed in us. He had faith in us and when that opportunity or should I say that challenge came knocking, we accepted it! The rest is history.

This individual has rescued so many people since that time. Network Marketing is ready for full-blown momentum. The question is, are you ready? Massive momentum is coming and I can feel it in my bones!

Thirty months after enrolling in Network Marketing we had enough money to be debt free and retire if we so wanted to. Today, my wife and I have earned almost \$15,000,000 in this industry.

Not bad for a kid that landed in America with one beat up suitcase, a rope for a belt, cardboard in my shoes and a huge dream. I am indeed a, "From down under to an over the top" story

Randi and I are the only network marketing professionals to ever receive a congressional commendation from the Congress of the United States, as well as fourteen gubernatorial proclamations and commendations from the Governors of 14 states for the impact we have had not just within our own company but within the entire industry.

My wife and I are the only Network Marketing professionals ever to be nominated for the Guinness Book of World Records.

My wife Randi and I love this industry. We love what we do because it affords so many people the opportunity to realize their full potential.

Now is the time for you to seize this moment, to raise the bar, to re-invent yourself and to believe in yourself. Now is the time to release the many talents that have laid dormant inside you.

Now listen carefully to this - There is no hope for your future without you having faith and belief that you can become what you really want to become.

Now is the time to meet the challenge of this next American Frontier - the challenge of building an economic future and financial security for yourselves and your posterity.

Now is the time for you to re-ignite the American spirit that resides inside you, that spirit of creativity, innovativeness, purpose, idealism, hope, invention, courage and hard work.

Now is time for each and every one of you to rescue those that have lost their light and ambition, lost their way. Now is the time for each

and every one of you to bring out the best in others. Now is the time for you to serve others. Now is the time for you to excel.

Now is the time for you to wake up and accept the new challenges that will face not only yourself but every American family in the future.

Now is the time to understand that the greatest threat to our nation is not the terrorists - it's the loss of hope, the loss of belief, and the loss of faith in your self.

Believe me when I tell you there is a dream out there with your name on it – you just need to find it, seize it and believe you can make it come true.

Together, we will inspire people all around us, we will rekindle a passion that will fuel the desire to excel and create a lasting opportunity for better health and wealth.

Through Network Marketing you will those that have lost their jobs, their homes and their dignity, “THE WAY” to lift themselves out of obscurity, debt and poverty; to enjoy the financial freedom and security they dream of and deserve.

Together we're going to help forge a new era of greatness for America and we are going to do it through this magnificent industry called Network Marketing.

Network Marketing has evolved! It is a profession of creativity and innovation.

I am so proud of my profession and the incredible progress it has made, especially within the last few years where today Network Marketing is acknowledged not only as perhaps the highest paid profession in America but as a bona-fide profession of respect, integrity and honor. I am so proud that Network Marketing has taken its place along side some of the greatest industries in American business.

I am equally as proud of how each and every one of you, as Network Marketing professionals, have helped make this happen.

Network Marketing is comprised of people – distributors and customers that have come from all walks of life, doctors, dentists, nurses, lawyers, entrepreneurs, business owners, hair dressers, massage therapists, nail technicians, accountants, cooks, truck drivers, real estate and insurance agents, contractors and laborers, land developers, mortgage bankers, stay at home moms and retirees and many others.

So far what we have all done together as distributors within this wonderful industry, reflects one simple but very profound concept - an idea as powerful as any in human history.

It is the concept of community, people believing in people as well as unity and teamwork. It is the concept of, that we are all in this together, all working together to make dreams come true for so many; that regardless of who we are or where we come from, male or female, young or old. It is an industry where each and every one of us counts and each of us can make a difference.

By working together in this fantastic business we can obtain health, wealth, joy and happiness and we can get it right now!

Network Marketing is a happy business with happy people in it, it is a business of hugs and loves. Its not about putting circles, squares and dollar bills on people's heads, its about love, compassion, nurturing and belief in those you serve.

Today, you have the opportunity to seize an incredible opportunity that could very well help you discover your purpose and realize your dream. You have the opportunity to be a big part of our family. You have the opportunity to even re-ignite your businesses and take advantage of this incredible window of opportunity.

Perhaps God's greatest gift to us is the freedom to choose. You have a choice before you today and that choice is whether or not to join us in our journey or to choose to re-ignite and rejuvenate your existing business. You will be choosing perhaps the greatest adventure of your lives, a journey of discovery where you may discover who you really are and who you really want to be.

You all ready know who you've been and who you are now, but what if you could realize your full potential. What if you can become who you really want to be? What if you could discover and release those other 990 talents that have resided inside you all these years.

Did you know God gave you a thousand talents but you may have only used 10 of them during your life? What do you think would happen if you discovered five more and engaged them – The sky would no longer be your limit!

Network Marketing is a journey of discovery of building friendships and relationships. Network Marketing is a journey of inspiration, education and information. Network Marketing represents a journey of helping others discover more of their talents and realizing their dreams.

Once you make the decision to enroll in our great industry, your life will never be the same again and I will tell you why.

There are only four things you can do with it!

You can survive – look under the freeway underpasses or in the public parks, you will see the survivors. This is where you find about 3% of all Americans today.

You can maintain your lifestyle and that is doing the same thing everyday, over and over again expecting a different result. I think this is what is called insanity. This is where about 75% of all Americans are today.

You can progress, this is where you see a little improvement year after year, this is where 12% of all Americans are or

You can excel, this is where only 10% of all Americans are today

90% of all Americans work for the other 10% working for W2 income and that 10% who work for 1099 income are responsible for 90% of the wealth of America today. Re-program and re-invent yourself – get away from that W2 and enjoy the benefits of 1099 income.

It is time for you to make some adjustments in your life, it's time for a change! Only you can choose where you want to be and what you want to become. Choose wisely, your financial future and the financial future of your family depends upon you making the right choice today.

I said this in my very first Network Marketing presentation a few years ago and I have probably said it hundreds of times since,

“It's not when you get into Network Marketing, it's when Network Marketing gets into you!”

Love you all

Tony and Randi Escobar
